November 10, 2025

DR. FERDINAND M. MAGTIBAY

Dean, Institute of Computing and Digital Innovation

Dear Dr. Magtibay:

Regal Day!

The ICDI Student Government respectfully submits for your consideration the project proposal entitled **“PROWLWAY: The ICDISG Archival Website.”** This initiative aims to establish a centralized, long-term digital archive to preserve the institutional history, governance outputs, and official records of ICDI Student Government.

By providing a structured, accessible, and transparent platform, PROWLWAY will enhance continuity, accountability, and institutional memory. It will allow students, faculty, administrators, and future student leaders to access verified documents, understand past initiatives, and engage with the evolving legacy of student leadership within ICDI.

We believe this project aligns with the institution's commitment to good governance, digital innovation, and sustainable systems. Attached herewith is the detailed project proposal for your review and approval.

Thank you for your time and continued support of student-led innovation.

REPUBLIC OF THE PHILIPPINES

City College of Dasmariñas

I. TITLE: PROWLWAY: THE ICDISG ARCHIVAL WEBSITE

II. RATIONALE:

In student government, documents are not merely outputs; they are the foundation of governance, reflecting decision-making, accountability, and service to the student body. However, despite their importance, these records are often fragmented, informally stored, or lost during leadership transitions.

At present, institutional memory within the ICDI Student Government relies heavily on social media posts, private cloud storage, chat archives, and personal devices. This practice results in recurring problems: difficulty retrieving official documents, limited transparency, duplication of initiatives, and inefficiencies during officer turnover. Incoming leaders are frequently forced to "start from scratch," not due to lack of effort, but due to lack of access to verified historical records.

PROWLWAY: The ICDISG Archival Website is proposed as a long-term, centralized digital archive designed to preserve, organize, and present the institutional history and official records of the ICDI Student Government. The platform will serve as a single source of truth for governance documents, events, announcements, and organizational data ensuring continuity beyond individual terms of office.

Beyond archiving, PROWLWAY promotes transparency and accessibility. Students will be able to view resolutions, reports, and announcements; faculty and administrators can reference official records; and future student leaders can learn from past initiatives through documented outputs rather than hearsay.

Ultimately, PROWLWAY shifts student governance from memory-based practices to system-based leadership by institutionalizing information management, strengthening accountability, and safeguarding the legacy of ICDI student leadership;

Because clarity, continuity, and transparency are essential principles of effective governance that connect, innovate, and empower the academic community.

III. OBJECTIVES

This project aims to:

1. **Connect:** Establish a centralized digital platform that bridges students, student leaders, faculty, and administrators by providing verified, accessible information on ICDI, its student organizations, events, and official records.
2. **Innovate:** Redesign traditional document handling and record-keeping by introducing a structured, searchable, and role-based archival system that leverages modern web technologies and best practices in digital governance.
3. **Empower:** Equip current and future student leaders with reliable institutional data and historical records, enabling informed decision-making, continuity of projects, and reduced reliance on informal or outdated sources of information.

4. **SDG Relation:**

SDG 16: Peace, Justice, and Strong Institutions – By promoting transparency, accountability, and inclusive access to information in student governance.

SDG 9: Industry, Innovation, and Infrastructure – Through the development of a sustainable digital infrastructure that supports institutional knowledge management.

IV. DEVELOPER TEAM / COLLABORATORS

Name	Role	Organization
Jemilson Buscagan	Principal Author, UI/UX Designer, and Documentation	ICDI Student Government
John Andrew G. Reyes	Project Manager, Backup Developer	ICDI Student Government
Mark Russel Cas	Front-End Developer	ICDI Student Government
Zendrick Gango	Back-End Developer	GitCub Organization

John Ralph Mendoza	Quality Assurance	GitCub Organization
Kenneth Ibanez	Graphic / Photo Contributor	ICDI Student Government

V. DEVELOPMENT TIMELINE

Week / Period	Task
Pre-Development Phase (Aug - Nov)	Planning, Project Proposal Documentation, UI/UX Designing
Week 1 (Dec 8 - 12)	Finalize Database
Week 2 (Dec 15 - 19)	Build Front-End Pages
Week 3 (Dec 22 - 26)	Announcement Module
Week 4 (Dec 29 - Jan 2)	Implementation of AJAX and User Roles
Week 5 (Jan 5 - 9)	Documentation Module
Week 6 (Jan 12 - 16)	Archive Logic, Search Functionality, and Full System Integration
Week 7 (Jan 19 - 23)	UI Polish, Project Implementation, Acceptance Testing, Bug Fixing
Week 8 (Jan 26 - 30)	Final Database Cleanup, DNS Propagation, GO LIVE

VI. PAGE STRUCTURE

1. **Home Page** - Landing page featuring a hero section, a brief introduction to ICDI and ICDISG, previews of the 5 most recent announcements, highlights of upcoming events, and featured documents.
2. **Origin Page** - Provides the organizational overview of ICDI, including its history, programs, courses, and affiliated student organizations.
 - 2.1 ICDI – Overview of the Institute of Computing and Digital Innovation
 - 2.1.1 About ICDI: Logo, mission & vision, brief history.
 - 2.1.2 Faculty Unit: IS, CS, Admins and Non-Teaching Personnel.
 - 2.1.3 Courses: Program descriptions, curriculum, subjects, eligibility, and requirements.
 - 2.2 Student Organizations – Overview of all ICDI-affiliated student organizations
 - 2.2.1 ICDISG
 - 2.2.1.1 SG Batches: Officers, committees, and responsibilities.
 - 2.2.2 ISSOC
 - 2.2.3 CSSOC
 - 2.2.4 GITCUB
 - 2.2.5 JPCS-KLDSC
3. **Events Page** - Archive of past and upcoming events where it includes the picture, title, platform/location, date, academic year, and “Read More” link of the event.
4. **Documents Page** - Repository for official ICDI/ICDISG documents with categories and subcategories for easy navigation.
 - 4.1 Offices Reports
 - 4.1.1 OTP Report - Summary of InnoVIsion Masterplan
 - 4.1.2 OVIA Report - TechCare Summary
 - 4.1.3 OVPEA Report - External Partnership
 - 4.1.4 OS Report - Documents Summary

- 4.1.5** OTA Report - Financial Report
- 4.1.6** OBPR Report
 - 4.1.6.1** Media and Publication Division Report
 - 4.1.6.2** Arts & Craft Division Report
 - 4.1.6.3** Media Documentation Report
 - 4.1.6.4** Business Report
- 4.2** Orders
 - 4.2.1** Executive Order
 - 4.2.2** Administrative Order
 - 4.2.3** Memorandum
- 4.3** Ordinances
 - 4.3.1** Series of 2025
- 4.4** Resolutions
 - 4.4.1** Series of 2025
- 4.5** Formal Documents
 - 4.5.1** Project Proposal
 - 4.5.2** Student Body (SB) Important Documents
- 5. Contact Page** - Page for inquiries, concerns, or feedback.
- 6. Future Features (Optional / Recommended)**
 - 6.1** Alumni Page: Highlight graduates, achievements, and alumni events.
 - 6.2** Research / Projects Page: Showcase student and faculty research, capstone projects.
 - 6.3** Merchandise Pre-orders: School memorabilia and merchandise.
 - 6.4** Newsletter / Subscription: Email subscriptions for announcements and updates.

VII. DOCUMENT LIFE CYCLE

All documents published on PROWLWAY shall be governed by a standardized document lifecycle to ensure accuracy, accountability, and consistency in institutional

record-keeping.

A. Content Classification

- Official Content refers to resolutions, reports, orders, memoranda, and financial summaries duly approved by the ICDI Student Government.
- Informational Content includes events, organizational profiles, announcements, and historical data.
- Archived Content consists of materials from previous academic years preserved for reference and continuity.

B. Document Management Workflow

All documents within PROWLWAY shall follow the lifecycle outlined below:

1. **Draft** – Document prepared by the originating office or committee.
2. **Review** – Subject to internal verification by authorized ICDI-SG officers.
3. **Approved** – Formally approved for publication by the designated approving authority.
4. **Published** – Made accessible to public viewers through the platform.
5. **Archived** – Transferred to historical records upon completion of the academic year.

VIII. DATA PRIVACY, SECURITY, AND USER ACCESS LEVELS

PROWLWAY shall operate in compliance with the **Data Privacy Act of 2012 (Republic Act No. 10173)** and applicable institutional data governance policies. The platform shall ensure that personal, sensitive, and confidential information is protected and that access to system functions is restricted based on clearly defined user roles.

A. Data Privacy and Protection

- No sensitive personal information (e.g., student numbers, personal contact details, grades, or disciplinary records) shall be published on the platform.
- All published documents shall undergo content screening to ensure compliance with data privacy regulations.

- Archived materials containing names or images shall be limited to official capacities and public institutional activities.

B. Security Measures

- Secure authentication shall be implemented for all administrative and editorial accounts.
- Role-based access control (RBAC) shall be enforced to prevent unauthorized modification of content.
- Regular backups of the database and file storage shall be conducted to prevent data loss.
- System credentials shall be securely stored and shall not be tied to personal email accounts.
- Access logs and content modification histories shall be maintained to support accountability and auditability.

C. User Access Levels

The PROWLWAY platform shall adopt the following user roles:

User Level	Access and Responsibilities
1 Super Administrator	Full system access. Manages hosting, database, user roles, and system-level configurations. Assigned to the ICDI-SG Web Administrator with adviser oversight.
1 Administrator	Manages official content, approves document uploads, and oversees announcements and events. Typically assigned to designated ICDI-SG Officers. It holds sole authority to approve and publish Official Content
Editor	Uploads and updates draft content such as events, organizational profiles, and draft documents subject to administrator's approval

Viewer (Public User)	Read-only access to published announcements, events, and archived documents. No login required.
-----------------------------	--

IX. DEVELOPMENT AND MAINTENANCE

To ensure sustainability beyond a single academic year, PROWLWAY shall follow a structured development and maintenance framework.

A. Development Responsibility

- The initial development shall be undertaken by the designated development team under the supervision of the ICDI Student Government.
- All source code, design assets, and technical documentation shall be turned over to the ICDI-SG upon project completion.

B. Maintenance and Updates

- The ICDI Student Government shall appoint a **Web Administrator** every academic year responsible for:
 - Content updates and archival uploads
 - User account management
 - Basic system monitoring and troubleshooting
- Minor updates and bug fixes shall be addressed internally, while major system changes shall require approval from the ICDI-SG Executive Board and Adviser.

C. Leadership Turnover and Continuity

- During the official transition period, all system credentials, documentation, and administrative access shall be formally endorsed to the succeeding ICDI-SG officers.
- A turnover checklist shall be included to ensure continuity of operations and prevent data loss or access disruption.
- This structured maintenance plan ensures that PROWLWAY remains functional, updated, and relevant across multiple academic years.

X. SCOPE, LIMITATIONS, AND SUCCESS INDICATORS

A. Scope of the Project

PROWLWAY is intended to function as:

- An archival and transparency platform for ICDI-SG records
- A public information hub for ICDI-related announcements, events, and organizational data
- A reference system for current and future student leaders

B. Project Limitations

The platform shall not:

- Serve as an official platform for student complaints, grievance filing, or disciplinary cases
- Replace formal institutional communication channels or official printed documents
- Host confidential or sensitive student records

XI. FUNDING AND SUSTAINABILITY

A. Project Costs

The estimated annual cost for PROWLWAY is approximately 13,000PHP, covering yearly web hosting with Hostinger. Costs may vary slightly depending on upgrades or additional features

B. Sources of Funds

The funding of PROWLWAY shall be sourced from ICDISG's printing and merchandising business which generates revenue from official student government merchandise, print materials, and other approved fundraising initiatives.

C. Optional Monetization

- PROWLWAY may accommodate non-intrusive advertisements or sponsorships on certain pages (e.g., events, alumni, or newsletter pages)

REPUBLIC OF THE PHILIPPINES
PROVINCE OF CAVITE
CITY OF DASMARIÑAS

KOLEHIYO NG LUNGSOD NG DASMARIÑAS
City College of Dasmariñas

- All advertisements must comply with institutional rules and must not interfere with the accessibility or neutrality of official ICDISG content.
- Revenue generated from ads will be used to support hosting, maintenance, and further development of PROWLWAY.

D. Sustainability

- The platform is designed to minimize recurring costs by using open-source technologies and scalable hosting solutions
- Annual review of hosting costs and potential revenue from ads will ensure long-term financial sustainability without relying on external funding or additional student contributions.
